

FACT! YOU CAN SAVE A MASSIVE 69% ON YOUR HEATING BILLS

When YOU install a DRAGON HEAT PUMP

If you heat your home on **OIL, LPG, COAL** or **ELECTRICITY** you can save up to 69% on your heating. **You will also make significant savings even if you heat your home with mains gas.**

Dragon Heat Pumps utilise the energy in the air around us, converting it to hot water for radiators, showers and baths etc.*

Even at low temperatures the Dragon Heat source pump is far more efficient than the most efficient gas boiler.

The clear benefits of Air Source Heat Pumps

- *Grants Available *Use Existing Radiators
- *System installed within 2 days
- *Save up to 69% on your bills and get paid for it (R.H.I)
- *No Digging* No gas supply needed
- *Replaces Gas/Oil/LPG Boiler
- *Low Maintenance *Accredited with UKAS & MCS

**Home heating
that doesn't
cost the earth**
